

HS Valve

HS Valve (patented)

Table valve for ebb/flow systems

The following advantages apply to the HS Valve:

- The HS Valve ensures an equable supply of water and nutrient solution for the plants on every table
- Available with 2-6 mm drillings for supply of nutrient solution
- Different connection possibilities

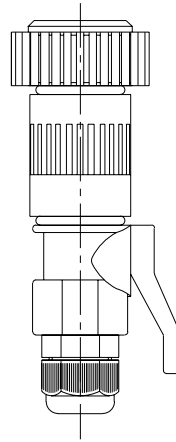

The HS Valve was patented in 1981 and thereby is a tested product, which is sold the world over with great succes.

HS Valves

Standard hole size: 3,5 mm

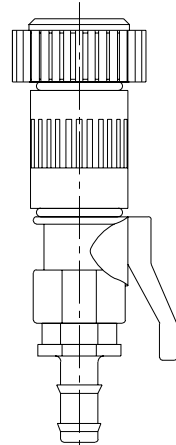

Item no.: 0750700

HS Valve with PE branch.
Available with 2 types of gasket
connector branch:
- for 6x8 hose
- for 8x10,5 and 10x12,5 hose

Item no.: 0750703

HS Valve with 1/2" hose branch.

Item no.: 0750704

HS Valve with 3/4" hose branch.
